Professional Experience

Cutler Martin brings innovative, contemporary perspective on business operations and management to Martin Commercial Properties. Cutler specializes in leveraging opportunities for the maximum benefit of investors through research-based, predictive methodology, and is highly skilled at identifying trends in commercial real estate country-wide. He joined the company's investment sales team in 2018, and has advised on transactions and opportunities across Michigan and other U.S. markets.

A graduate of the Stephen M. Ross School of Business at the University of Michigan, Cutler earned his Bachelor of Arts in Political Science, as well as three Academic All-Big Ten Selections as a four-year varsity hockey player. A believer in giving back to the community, he volunteered throughout college with organizations like Habitat for Humanity, Motts Children's Hospital and UoM Mock Rock Fundraiser.

Cutler is the third generation in his family to work for Martin Commercial Properties — the company founded by his grandfather, William G. Martin in 1962, and led for more than 40 years by his father Van W. Martin. He continues the Martin legacy through the tradition of building strong relationships and contributing to the prosperity and economic development of communities he serves.
